

Pizza Paddle

[SHOW PIZZA](#)

- Made of Metal
- For Ovens with Pizza Mode
- Comfortable and secure grip
- Lama sottile che consente di maneggiare facilmente la pizza

FEATURES

The pizza shovel is an essential tool for those who like to prepare and bake pizza professionally at home. Made of durable, lightweight metal, this shovel features a thin blade that makes it easy to handle the pizza while baking and taking it out of the oven. Its ergonomic shape provides a comfortable and secure grip, allowing the pizza to slide in without compromising its shape. The metal's heat resistance makes it suitable for use in high-temperature ovens, ensuring even baking and optimal heat distribution on the pizza.
